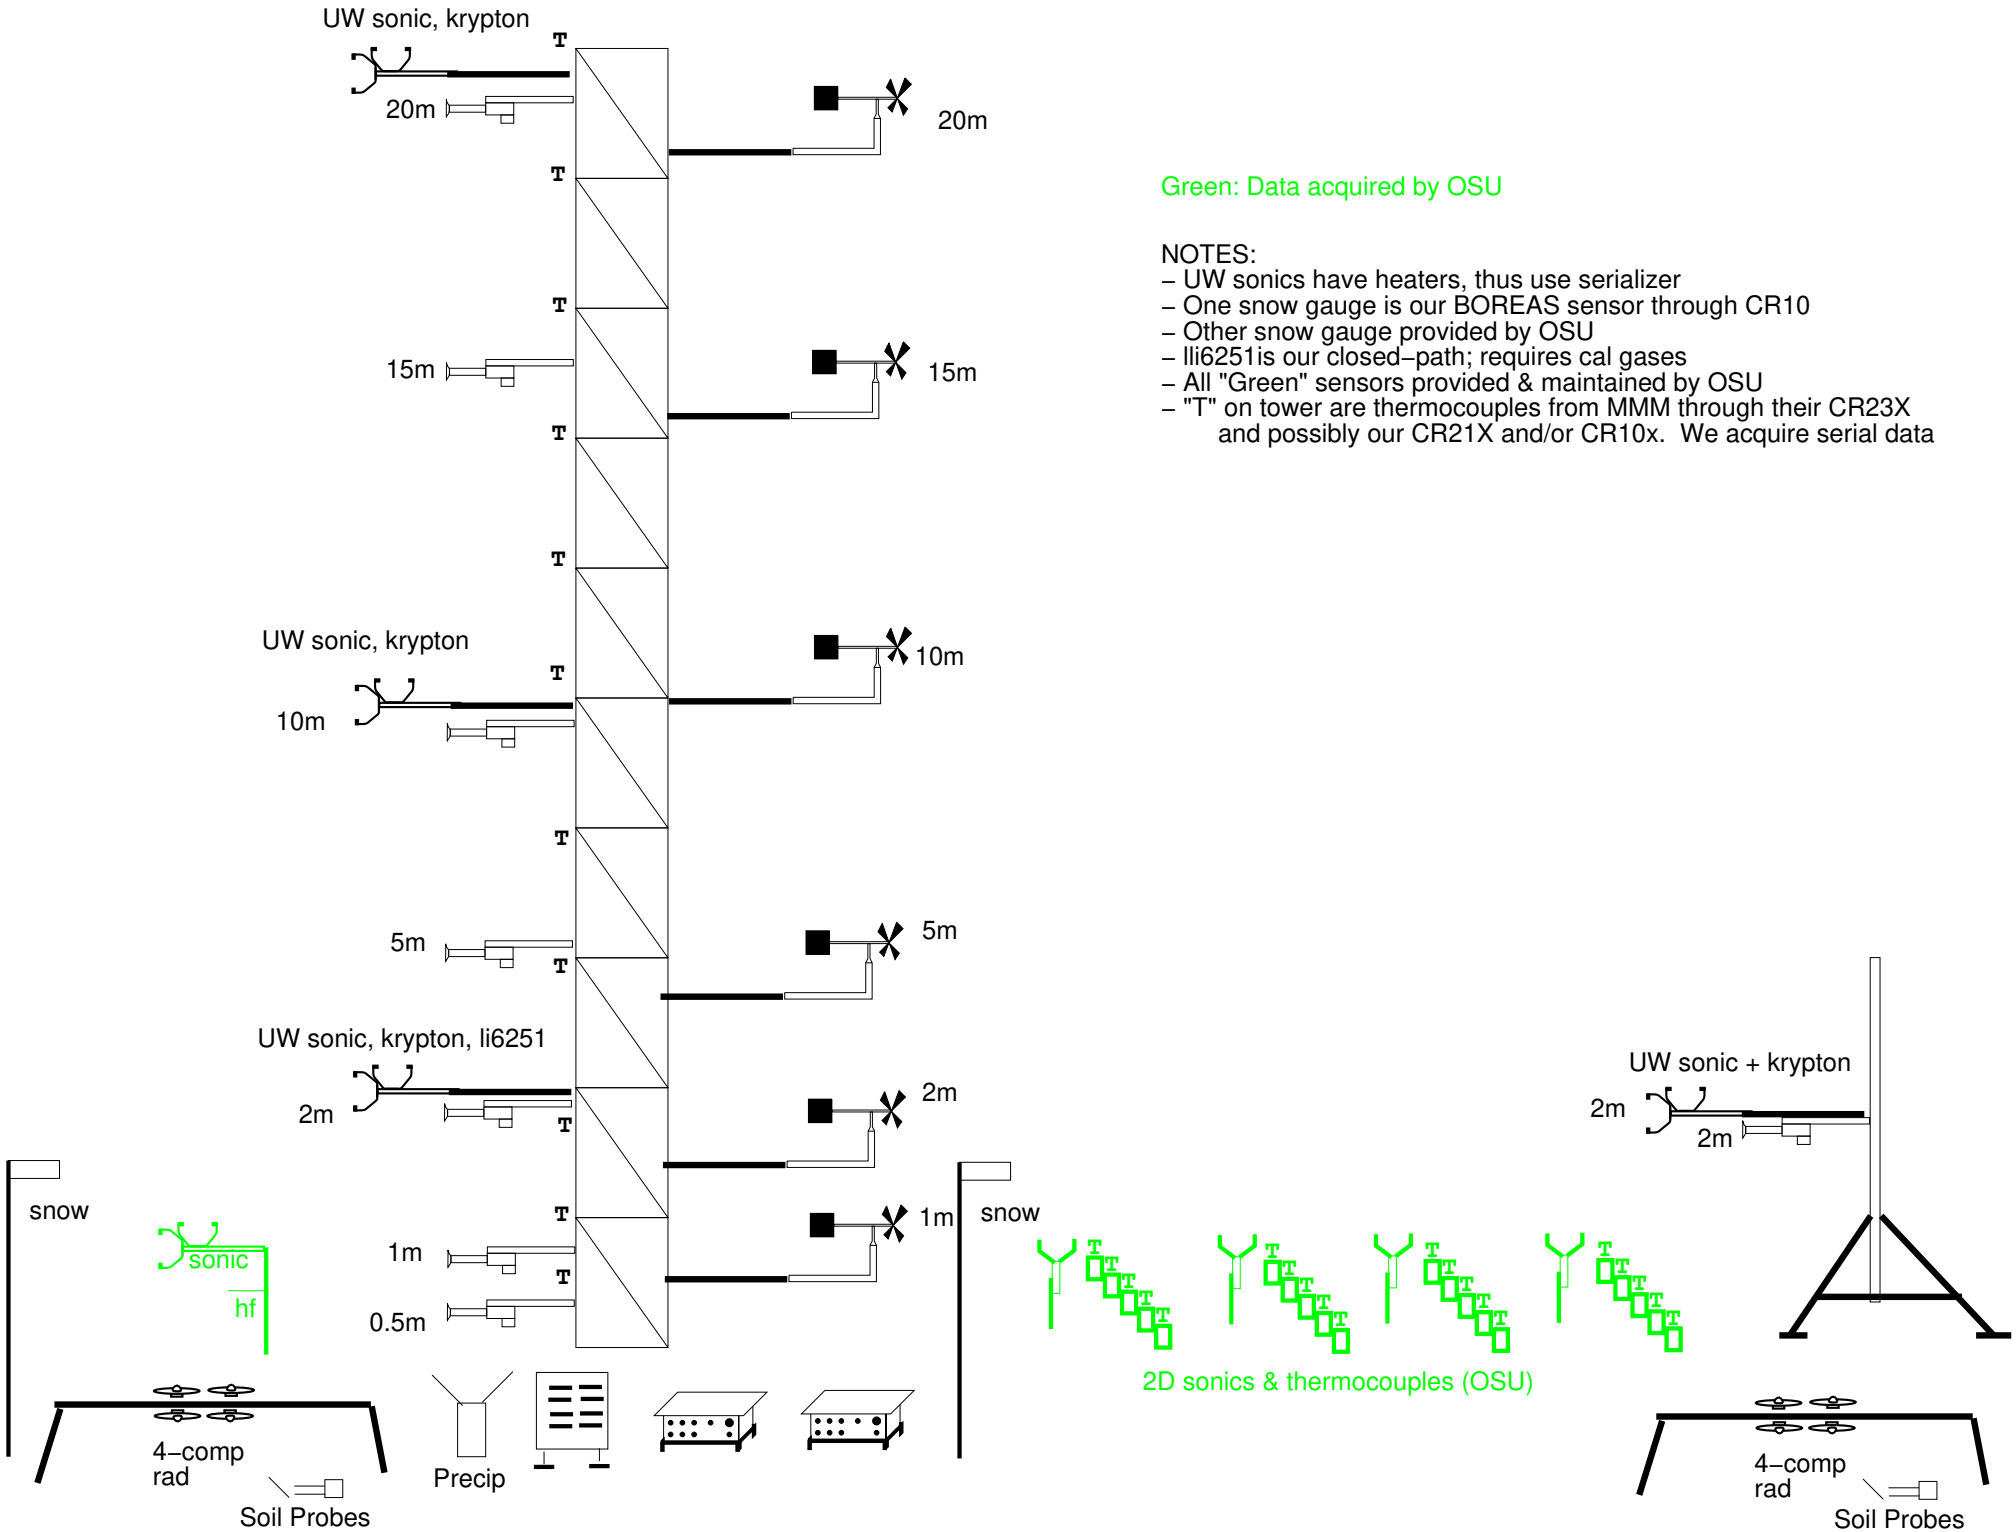
# DRAFT (10/23/01): FLOSS02 Sensor Layout



Green: Data acquired by OSU

NOTES:
– UW sonics have heaters, thus use serializer
– One snow gauge is our BOREAS sensor through CR10
– Other snow gauge provided by OSU
– lli6251is our closed–path; requires cal gases
– All "Green" sensors provided & maintained by OSU
– "T" on tower are thermocouples from MMM through their CR23X and possibly our CR21X and/or CR10x. We acquire serial data
