

DEEPWAVE Collaborative Education & Outreach

DEEPWAVE Public Open House & Media Event

Coordinate media event & public open house to visit research aircraft

Provide tours of aircraft, explanation of research, & benefits of the science to society

DEEPWAVE Community & School Presentations

“How do we know about weather & climate”

Provide engaging presentations to:

- middle & high schools
- civic & community groups

DEEPWAVE University Student Engagement

Involve
undergraduate &
graduate students
with research efforts

Provide hands-on
opportunity to learn
more about climate
science, & experience
a scientific field
project by visiting the
operations center &
research sites

DEEPWAVE Teacher Workshop

Gather teachers for a session of in-depth learning about the project and practice related classroom activities to teach about climate science
