

# How to submit HIPPO data

## HIPPO\_N

Quicklook data; updated as QA/QC proceeds

*Used for preliminary merges. May be given to cooperating modelers/analysts with caveats and conditions*

## HIPPO\_N\_SUBMIT

QA/QC data. Only one file should appear (no versions). Update as needed (inform the team). Each instrument PI should put files here (PI responsible).

*Used to prepare data sets, both instrument and PI data, for wide distribution.*

## HIPPO\_N\_ARCHIVE **New!**

Archival quality data. Designated people move data from \_SUBMIT to \_ARCHIVE. Team is notified.

*These data sets will be served by CDIAC and EOL to the public.*
