

# T-PARC/TCS-08

## Data Management Meeting

### Summary and Action Items

- Proper Links between EOL T-PARC web page and archives
- Important to have documentation ('read me') file with every dataset
- Update EOL archive site 'Master List' to confirm dataset titles

[http://data.eol.ucar.edu/master\\_list/?project=T-PARC](http://data.eol.ucar.edu/master_list/?project=T-PARC)

- Copies of datasets, when practical or desirable, to EOL
- A number of data to be available in the next 1-2 months including: QC'ed C-130 dropsonde, SFMR, EOL QC'ed Driftsonde, C-130 Flight level data, Falcon Lidar data, ELDORA

# T-PARC/TCS-08

## Data Management Meeting

### Summary and Action Items

- Other dataset updates:
  - New JMA site with, model, satellite, selected operational sounding and radar network data
  - Simpson Wx Assoc web site for P-3 Lidar to be available in Sept 2009
  - DOTSTAR flight level data to be sent to EOL
  - Lightning data hosted at UHawaii and/or EOL (signed release required)
  - EOL Contact with KMA of access to PROBEX datasets
  - EOL to work with modeling centers to coordinate archives

# T-PARC/TCS-08

## Data Management Meeting

### Summary and Action Items

- PI and or facility provision of software for subsetting datasets
- Common parameter dataset (aircraft)
- Consideration of common data formats (aircraft and soundings)

# T-PARC/TCS-08

## Data Management Meeting

### Summary and Action Items

- Identify case studies for collaborative analysis efforts
- Articles for BAMS and other special issue suggestions
  - Student paper
  - Operations/objectives paper
  - TC life cycle paper
  - Mon. Wea. Rev dedicated issue
- Future meetings
  - TCS-08 Science meeting (17 August)
  - “new” THORPEX meeting (14 September)
  - JMA Meeting
  - Possible combined summer/winter T-PARC meeting in Spring 2010
  - AMS Hurricane and Tropical Meteorology Conference

9 May, Tucson, AZ
